# Profile™ 2040

## PERIMETER FRAMED PIVOTING SHOWER SCREEN SYSTEM WITH SEMI-FRAMED DOOR

Profile™ 2040 features a round convex profile with protruding glazing fascia outer frame design.

### Exceptional Value

Indulge your imagination and create an absolute premium bathroom design at a surprisingly affordable price.

### Adjustment

Provides up to 15mm jamb adjustment for out-of-square walls for ease of installation and further cost savings.

### Handle Selection

An extensive range of handles are available in your choice of powder coated and gold, satin or chrome plated finishes.

### Design Flexibility

Profile™ 2040 Shower Screen Systems can be designed for installation into most bathrooms. Ask your distributor for advice on a design to suit your needs.

### Water Resistance

Profile™ 2040 can be specially made to include magnetic and/or non-magnetic seal closures, maximising water splash resistance so your bathroom remains drier and safer.

### Patented Pivot Mechanism

Utilising a stainless steel pivot pin, the Profile™ 2040 Shower Screen System features a 'positive close' low friction design mechanism, providing the benefit of whisper-quiet and trouble-free operation. The 'lowering' effect of the design automatically reduces the gap between door and sill on door closure, which further assists with the minimisation of external splashing and improved water resistance.

Over 180° of door swing is possible, enabling both inward and outward opening if required, providing maximum use of bathroom area.

### Glass Size

Designed specifically for use with 6mm toughened glass. Will accept 8mm glass (silicone glazed) if desired.

### Low Maintenance

Smooth contoured profiles minimise soap and residue accumulation, reducing the need for cleaning.

### Components

Component and design features combine to provide convenience and colour co-ordination.

- Snap Caps
- Patented Pivot Mechanism
- Anti-bacterial clear (i.e. frost) and colour matched glazing vinyl.

### Safety

Profile™ 2040 Shower Screen Systems are glazed to comply with the requirements of Australian Standards AS2208 and AS1288.

### Colour Selection

	Black
	Almond Cream
	White
	Bright Satin
	Bright Bronze
	Bright Gold
	Bright Natural
	Matt Natural
