Profile™ Square Cut 2041

PERIMETER FRAMED PIVOTING SHOWER SCREEN SYSTEM WITH SEMI-FRAMED DOOR
Profile™ Square Cut 2041 features a rounded convex profile with protruding glazing fascia outer frame design.

Exceptional Value

Indulge your imagination and create an absolute premium bathroom design at a surprisingly affordable price.

Adjustment

Provides up to 15mm jamb adjustment for out-of-square walls for ease of installation and further cost savings.

Handle Selection

An extensive range of handles are available in your choice of powder coated and gold, satin or chrome plated finishes.

Components

Component and design features combine to provide convenience and colour co-ordination.

- Snap Caps
- Handles
- Anti-bacterial clear (i.e. frost) and colour matched (i.e. silver) glazing vinyl

Water Resistance

Profile™ Square Cut 2041 can be specially made to include magnetic and/or non-magnetic seal closures, maximising water splash resistance so your bathroom remains drier and safer.

Patented Pivot Mechanism

Utilising a stainless steel pivot pin, the **Profile™ Square Cut 2041** Shower Screen System features a 'positive close' low friction design mechanism, providing the benefit of whisper-quiet and trouble-free operation. The 'lowering' effect of the design automatically reduces the gap between door and sill on door closure, which further assists with the minimisation of external splashing and improved water resistance.

Over 180° of door swing is possible, enabling both inward and outward opening if required, providing maximum use of bathroom area.

Square Cut Corner Stake Design

Square Cut Corner Stakes are designed to match the perimeter frame profile, providing rigid colour co-ordinated joining points in the screen structure.

Safety

Profile™ Square Cut 2041 Shower Screen Systems are glazed to comply with the requirements of Australian Standards AS2208 and AS1288.

Glass Size

Designed specifically for use with 6mm toughened glass.

Low Maintenance

Smooth contoured profiles minimise soap and residue accumulation, reducing the need for cleaning.

Design Flexibility

Profile™ Square Cut 2041 Shower Screen Systems can be designed for installation into most bathrooms. Ask your distributor for advice on a design to suit your needs.
