VISION 2030™ framed pivoting shower screen system with framless door

VISION 2030™ features a rounded convex profile with protruding glazing fascia outer frame design.

Exceptional Value

Indulge your imagination and create an absolute premium bathroom design at a surprisingly affordable price

Adjustment

Provides up to 15mm jamb adjustment for out-of-square walls for ease of installation and further cost savings.

Handle Selection

An extensive range of handles are available in your choice of either clear acrylic, brass, aluminium powder coated and gold or chrome plated finishes.

Components

Component and design features combine to provide convenience and colour co-ordination.

- Snap Caps
- Patented Pivot Mechanism
- Anti-bacterial clear (ie. frost) and colour matched glazing vinyl

Water Resistance

VISION 2030™ can be specially made to include magnetic and/or non-magnetic seal closures, maximising water splash resistance so your bathroom remains drier and safer.

Frameless Patented Pivot Mechanism

Utilising a stainless steel pivot pin, the VISION 2030™ Shower Screen System features a 'positive close' low friction design mechanism, providing the benefit of whisper-quiet and trouble free operation. The 'lowering' effect of the design automatically reduces the gap between door and sill on door closure, which further assists with the minimisation of external splashing and improved water resistance.

Over 180° of door swing is possible, enabling both inward and outward opening if required, providing maximum use of bathroom area.

Glass Size

Designed specifically for use with 6mm toughened glass. Will accept 8mm glass (silicone glazed, excluding door) if desired.

Return Jamb Design

Aesthetically pleasing slimline style provides a durable and protected edge/corner to this shower screen design.

Low Maintenance

Smooth, contoured profiles minimise soap and residue accumulation, reducing the need for cleaning.

Design Flexibility

VISION 2030™ Shower Screen Systems can be designed for installation into most bathrooms. Ask your distributor for advice on a design to suit your needs.

Safety

VISION 2030™ Shower Screen Systems are glazed to comply with the requirements of Australian Standards AS2208 and AS1288.

Colour Selection

Special colours available on request.
