# Integrity™ 9431

Framed pivoting shower screen system with frameless magnetic door

Integrity™ 9431 represents a Good Design Award winning product, featuring a low profile twin tiered sill design.

## Magnetic Closure

Colour co-ordinated PVC magnetic door strip provides a positive door closure, rattle free operation and enhances water resistance.

## Water Resistance

Low profile sill design combined with unique dual edge spray flap significantly improves water resistance and reduces splashing.

## Safety

**Integrity™ 9431** Shower Screen Systems are glazed to comply with the requirements of Australian Standards AS2208 and AS1288.

## Integrated Fixed Panel

Fixed panels (where required) are glazed directly into the outer frame, minimizing the potential for residue accumulation.

## Exceptional Value

**Integrity™ 9431** provides the opportunity to indulge your imagination and create the absolute premium bathroom design at a surprisingly affordable price.

## Design Flexibility

**Integrity™ 9431** Shower Screen Systems can be designed for installation into most bathrooms. Ask your distributor for advice on a design to suit your needs.

## Frameless Patented Pivot Mechanism

Unique pivot design allows for a frameless door. Utilising a stainless steel pivot pin, the **Integrity™ 9431** Shower Screen System features a 'positive close' low friction design mechanism, providing the benefit of whisper quiet and trouble free operation.

## Advanced Sill Design

Contoured fully enclosed twin-tiered sill design directs water run-off into shower base. Gasket sealing system ensures maximum water resistance. Low profile design is foot-friendly, unobtrusive and reduces external splashing for a cleaner, drier and safer bathroom.

## Glass Size

Designed specifically for use with four (4), five (5) and six (6) mm toughened glass. Return panels can be fabricated in 6.38mm laminated safety glass if desired.

## Colour Selection

	Black
	Wild Grey
	White Birch
	APO Grey
	Almond Cream
	Almond Ivory
	White
