Vogue 5050™

PERIMETER FRAMED PIVOTING SHOWER SCREEN SYSTEM WITH FRAMELESS DOOR

Vogue 5050™ features minimal square profile with fully recessed glazing channel outer frame design.

Exceptional Value

Indulge your imagination and create an absolute premium bathroom design at a surprisingly affordable price.

Design Flexibility

Vogue 5050™ Shower Screen Systems can be designed for installation into most bathrooms. Ask your distributor for advice on a design to suit your needs.

Handle Selection

An extensive range of handles are available in your choice of either clear acrylic, aluminium powder coated and gold, satin or chrome plated finishes.

Components

Component and design features combine to provide convenience and colour co-ordination.

- Snap Caps
- Anti-bacterial clear (i.e. frost) and colour matched glazing vinyl
- Pivot Clamp System
- Magnetic Door Latch

Adjustment

Provides up to 15mm jamb adjustment for out-of-square walls for ease of installation and further cost savings.

Frameless Patented Pivot Mechanism

Unique pivot design allows for a totally frameless door. Utilising a captive stainless steel top pivot pin, the **Vogue 5050™** Shower Screen System features a 'positive close' low friction design mechanism, providing the benefit of whisper-quiet and trouble-free operation.

The 'lowering' effect of the design automatically reduces the gap between door and sill on door closure, which further assists with the minimisation of external splashing and improved water resistance.

Over 180° of door swing is possible, enabling both inward and outward opening if required, providing maximum use of bathroom area.

Water Resistance

Vogue 5050™ can be specially made to include magnetic and/or non-magnetic seal closures, maximising water splash resistance so your bathroom remains drier and safer.

Low Maintenance

Minimal square profile, reduces soap and residue accumulation enabling easier cleaning.

Magnetic Door Latch Mechanism

Vogue 5050™ is also available with a specifically designed magnetic door location feature. The Magnetic mechanism has no moving parts resulting in trouble free whisper quiet operation.

Safety

Vogue 5050™ Shower Screen Systems incorporates a captive pivot pin mechanism so the door cannot be dislodged from the shower head section. The **Vogue 5050™** Shower Screen Systems are glazed to comply with the requirements of Australian Standards AS2208 and AS1288

Glass Specification

Designed specifically for use with 6mm toughened glass.
